

# PROFESSIONAL APPLICATOR INSTRUCTIONS

**Professional Applicator** makes it easy to apply:  
**Roof QSE, Roof OX** and **Roof Armor**  
from a distance with your garden hose.

Detailed Assembly and mix ratio instructions are  
included on the white sprayer instruction page.

**Unfold for Directions**

## GENERAL

### Which Tip to use?

- **NO TIP (BEST)**  
By removing either/ both tips, the applicator can project stream of cleaner up to 25 feet  
(Distance varies based water pressure / PSI, effected by hose diameter, household pressure, roof pitch and height )
- **Deflector tip**  
Close up spray approx 3 ft width and 3ft out
- **Foam Wand**  
Not used with Cleaner Today products,  
but can be used with a foaming car wash soap

## TIPS / HINTS

- ⇒ **USE Roof Armor every year to prevent stains** if you purchased the **Clean Roof Forever** bundle, follow tan **Roof Armor Treatment** instructions
  - ⇒ If you do not have **Roof Armor Treatment**, it's not too late! Apply anytime with 12 months
- ⇒ Practice spraying with plain water before using the cleaner, practice can help avoid wasting the cleaner
- ⇒ BEST results are from applying and rinsing from the roof
- ⇒ Good results can be obtained from the gutter line, but heavy stains will longer to fade
- ⇒ **Never spray from the ground**, the roof cleaners may land on unintended surfaces

## ROOF QSE

### Mixing Roof QSE:

- ◆ Use Gloves and Face Protection
- ◆ Fill 1/3 of spray jar with water
- ◆ Add contents of 1 (one) QSE EZ-Pouch while stirring
- ◆ Mix until dissolved
- ◆ Spray jar will become HOT, this is normal, the cleaner releases heat
- ◆ Fill with water to top of jar
- ◆ Attach applicator to jar, then to hose
- ◆ Set applicator dial to 'E' (12oz / gal)
- ◆ Continue with 'APPLY' step on *BLUE Roof QSE instructions*

### Notes regarding Roof QSE:

- ◆ Handle carefully, cleaner is **HIGHLY** concentrated in jar
- ◆ Cleaner will dispense about 7 minutes before jar is empty, this should be used to cover 750 sq ft
- ◆ If cleaner is not dispensing, shake spray jar, un-dissolved cleaner may block the siphon tube

## ROOF ARMOR

### Mixing Roof Armor :

- ◆ Roof Armor Treatment powered by: MoldSTAT Plus
- ◆ Mold STAT plus is packaged in either a 16oz dispenser or 1 Gallon Jug.
- ◆ Add 16oz or 2 cups of MoldSTAT Plus to spray jar
- ◆ Add 24oz or 3 cups water to spray jar

### Spraying Roof Armor :

- ◆ Set Dial to "B" (2oz / gallon)
- ◆ Attach to hose, remove applicator tip for long range stream
- ◆ Soak roof ensuring that that every area is treated (wet)
- ◆ Makes 20 gal / covers 3000 sq ft

### Rinsing:

- ◆ Rising is not required
- ◆ Treatment prevents the formation of roof stains for 12 - 15 months

**Clean Roof Forever**  
**Roof Armor Treatment**  
**Every 12 months**

## ROOF OX

### Mixing Roof OX:

- ◆ Use Gloves
- ◆ Fill 1/3 of spray jar with **HOT** water
- ◆ Slowly stir in contents of 1 (one) OX EZ-Pouch
- ◆ Jar will foam during this time, as water activates the oxygen reaction
- ◆ Fill remainder of jar with **HOT** water
- ◆ Wait 5 minutes for activation
- ◆ Attach applicator to jar, then to hose

- ◆ Set applicator dial to 'E' (12oz / gal)

- ◆ Continue with 'APPLY' step on *Roof OX instructions*

### Notes regarding Roof OX:

- ◆ Dispensing the cleaner will take approx 7 minutes, you should cover a 325 sq ft area in this time
- ◆ If cleaner is not dispensing, shake spray jar, un-dissolved cleaner may block siphon tube
