

**THANKS FOR CHOOSING ROOF QSE!**

Roof QSE EZ-Pouch = 750 sq ft coverage  
 Number of pouches depends on the product  
 ( QSE-1500=2 , QSE-3000=4 , QSE-4500=6)

**Unfold for Directions**

**HAVE A CLEAN ROOF FOREVER!**

Roof QSE is the first step. After you spend the time and energy to clean your roof, protect your investment with annual Roof Armor applications!

Roof Armor eliminates the algae that forms the ugly roof stains and does not require rinsing. Applying Roof Armor every 12 months breaks the stain cycle and your roof stays clean... **Forever!**

**1. READY**

**Choose an Ideal Day:**

- ◆ Temp over 45°  
(Not below freezing within 4 hours)
- ◆ No rain while applying
- ◆ low or no wind

**Mixing Roof QSE:**

Always use gloves, skin and eye protection when handling Roof QSE

**Pump-Up Garden Sprayer (Best):**

- ◆ Fill bucket with 4 gallons of water
- ◆ Slowly mix in 1 (one) QSE EZ-Pouch
- ◆ Stir until dissolved
- ◆ Pour into pump-up sprayer

**Cleaner Today Pro-Applicator:**

- ◆ Follow GREEN Pro-Applicator Instruction sheet included

**Pressure washer soap injector:**

- ◆ Fill bucket with 1/2 gallon water
- ◆ Slowly add 1 (one) QSE EZ-Pouch
- ◆ Mix until dissolved
- ◆ Assumes 7:1 mix ratio,  
for 15:1 ratio use 2 QSE EZ pouches
- ◆ Use soap / chemical Tip (Black)

**2. APPLY**

**Application Strategy:**

- ◆ Work in 12' x 15' sections
- ◆ Apply to dry shingles
- ◆ Do **not** allow cleaner onto paint, rubber or plants; wet surrounding plants as a precaution both before applying and after rinsing; if contact occurs rinse immediately

**From on the roof (Best):**

- ◆ Start at the bottom row of shingles
- ◆ Work up the roof to the ridge line

**From the gutter level:**

- ◆ Target highest point of roof line
  - ◆ Work your way down to gutters
- ⇒ Soak the shingles to the point where the solution is just about to run  
 ⇒ Soaking the shingle is essential to penetrate the stain  
 ⇒ Over applying to shingles may waste cleaner resulting in less coverage  
 ⇒ Allow to soak for at least 25 minutes (Be patient this is the cleaning time)  
 ⇒ If shingles dry, mist with water to reactivate cleaner;  
 Cleaner only works when **WET**

**3. RINSE**

**Rinsing is essential!**  
**Until the stains are rinsed away, the clean roof may remain hidden**

**From on the roof (Best):**

- ◆ Garden hose tight jet stream (May not have enough pressure, if not use pressure washer instructions below)  
**or**  
Pressure washer fan spray tip (keep pressure under 200psi, if using a 3000psi rig, a spray 20in wide is a **safe** 150psi when the spray hits the shingles)
- ◆ Start rinsing at the ridge line working down to gutters
- ◆ Heavy stains may need a tight jet of water **within 12 inches** to dislodge the stain residue
- ◆ For stubborn stains, wipe with a soft bristle car brush to agitate stains (similar to brushes used at a Car Wash, this type brush is soft and will not disturb roof granules)

**From the gutter level:**

- ◆ Rinsing from gutter level may not provide a rinse intensity sufficient to remove stain residue
- ◆ The next 5" of rain may help rinse more of the stains away

**HINTS / TIPS**

- ⇒ BEST results are from applying and rinsing with adequate pressure from the roof; Good to fair results can be obtained from the gutter line, but heavy stains take longer to fade.
- ⇒ Heavy stains / old roofs : shadows of stains may remain. Often stains 2 years and older block the area under the stain preventing it from fading equally. These 'shadows' may still be apparent although the stain is gone, unfortunately, this can not be corrected.
- ⇒ White, Tan or light color roofs: Start with 1/2 EZ pouch, Test on a small discrete section of roof to confirm shingle is colorfast and will not discolor. Treat twice with half strength or Increase to full strength EZ pouch only if shingles are completely colorfast.
- ⇒ Do not use hose end ( 'miracle grow' ) applicators, the mix ratio will over dilute the cleaner and cause it to not work. Only the Cleaner Today Pro-Applicator has the correct mix ratios. Use coupon on the front page to order if needed.
- ⇒ Roof QSE will not remove stains caused by rust, minerals, or metals
- ⇒ 'Clean Roof Forever' using **Roof Armor** to prevent stain re-growth  
 ⇒ If you purchased the **Clean Roof Forever** bundle, follow the tan **Roof Armor** instructions once the roof had been cleaned.

**COMMON SENSE CAUTIONS**

DOES NOT CONTAIN ACIDS, BLEACH, PHOSPHATES, SOLVENTS OR PEROXIDES

**It is a violation of Federal law to use this product in a manner inconsistent with its labeling.**

*Read and follow ALL safety information contained on this label and in the MSDS. Manufacturer's warranty is limited to purchase price. No other guarantee is given or implied. User Assumes all risk.*

**CONTAINS:** Wetting agents, sodium hydroxide and proprietary surfactant blends.

**WARNINGS:** Danger! Corrosive, produces chemical eye and skin burns.

**If on Skin:** Remove contaminated clothing and shoes immediately. Immediately flush with water for 15 minutes  
**If in Eyes:** Hold eye open and rinse with water for 15 minutes. Call a poison control center or doctor for treatment advice.

**If swallowed:** If swallowed give large amounts of water followed by citrus juice or diluted vinegar. Call a poison control center or doctor immediately for treatment advice.
